## ELECTION FOR SCHOOL BOND ISSUE BEFORE VOTERS SATURDAY

Hours 5 P. M. to 9 P. M.—  
\$45,000 Needed for New  
School Building.

The election to vote on the proposition of a \$45,000 bond issue, which is to be used for the erection of a new school building in District 34, will be held at the grade school next Saturday, February 4th, from 5 p. m. to 9 p. m. These hours were selected because they were deemed most convenient for the voters, and it is hoped every resident of the district will express his wish at this time.

### Present School Inadequate

The present building is entirely inadequate for the needs of the school, and it has been with the greatest difficulty that the school has been maintained for the last two years. Rooms are so overcrowded, it has been impossible to give the individual child attention that is due him, and while the teachers have expended every effort, they are not satisfied with the results.

Leading educators claim that there should be not more than twenty-five to thirty pupils in one room. At the present time the school has nearly twice that number in three of the rooms, with a consequent loss of efficiency.

### Portables are Poor Economy

Next year the fifth and sixth grades as well as the seventh and eighth grades must be divided and provided with a room for each grade. The Board feels that it is poor economy to erect portables. A portable of the type used at present costs approximately two thousand dollars when equipped, and is merely temporary and far from the ideal in the way of heat, light and ventilation.

### Bollers Are Bad

During the last few years, the Board has found it necessary to expend large sums of money yearly on the repair of the old building. The Superintendent of Public Instruction, the State Fire Marshal, and the Insurance Companies have demanded many changes. At present the boilers are in bad condition, and it is only by the use of supplementary stoves that the building can be heated. It is a question of but a short time before these boilers will have to be replaced at an estimated cost of two thousand dollars.

Architects have assured the board that it is entirely feasible to build a central heating plant to take care of the old building as well as the new unit, thus eliminating the replacement of the old boilers, and at the same time insuring a heating capacity large enough to take care of the future completed building.

### Maintenance Cost is High

During the last ten years, it has been necessary each year to levy the tax limit, as established by law, in order to take care of necessary equipment and maintenance costs. Consequently there can be no increase in the tax rate. By careful budgeting of expenses and regular income, the Board has formulated a plan by which the interest on the \$45,000.00 bond issue can be met, the bonds retired as they mature, and the annual running expenses of the school can be taken care of.

Due to the high cost of having plans drawn, the Board thought it inadvisable to retain an architect until the bond issue was assured. However, the school board plans to keep the public fully informed through the columns of the Antioch News of any action to be taken, or special or regular meeting to be held, and the presence and advice of anyone interested will be very much appreciated.

## Flays "Companionate Marriage" in Sermon

Scoring "companionate marriage" as legalized prostitution, and voicing approval of the sacred institution of the home, Rev. A. M. Kralh flayed new-fangled marriage ideas before a large and attentive audience assembled at the local Methodist church on Sunday evening to hear the pastor's message on the subject, "Until Death Do Us Part."

In preparation for his sermon Sunday evening, Rev. Kralh had evidently done considerable research work relating to the marriage problem. There is one divorce out of five marriages, according to Pastor Kralh. Eighty per cent of divorce actions are brought into court by women, and ninety per cent want alimony. According to court statistics, the pastor found, 50 per cent of alimony claims

## All Work, No Play— Jack Dull Boy; Men Plan Pleasure Trip

Heading the old slogan, "All work and no play makes Jack a dull boy," a group of Antioch business men are planning to leave dull care behind them next Monday night and journey to Chicago, either in private cars or a special North Shore parlor coach, depending on the number to go. On the program of entertainment will be a good show, a feed, and any other amusement the men see fit to include in the evening's activities.

"It's a good thing to shake off the old shell once in a while and grab a little pleasure as you go along," said a well known business man today. "Ten years from now you can't back up and enjoy the pleasures that should be yours today."

The trip is under the auspices of the Antioch Business Club, and Otto S. Klass has headed the committee on arrangements.

Those who desire to go should see Mr. Klass, of the committee, or S. Boyer Nelson, Business Club secretary, not later than Friday morning.

## NAME POPULAR ANTIOCH PRODUCT AND EARN \$5.00

## Baker Seeks Name and Slogan for New Bread Wrapper.

How good are you in thinking or inventing something new? Well, here's a chance to turn your talent in that line into cash.

Robert C. Worsley, successor to Somerville, has announced that he will give a prize of \$5.00 in gold to the person furnishing a name and trade slogan for his new bread wrapper.

"No, we are not changing the product, for our bread is already the best bread that can be made," Mr. Worsley said today. "We just want a new name for the wrapper and a slogan suggestive of quality, wholesomeness and cleanliness."

The contest is open to all regardless of place of residence. All entries must be in by Feb. 15, and the winner will be announced in this newspaper Feb. 25.

## How To Set Up Your Incubator For Best Results

There are a few things to pay particular attention to in setting up an incubator.

It should be set in a room where the temperature may be held comparatively constant throughout the hatch—from 60 to 70 degrees Fahrenheit. The room should permit proper ventilation as an incubator requires a never-ending supply of oxygen. Drafts and direct sunlight should be guarded against. Be sure that the room will allow for proper moisture supply. In the machine and surrounding atmosphere.

After selecting the location, the next step is to level up the machine. If not perfectly level, the heat will not be evenly distributed in the egg chamber. The highest corner will be the hottest.

If the machine has been used before, clean the lamp and provide a new wick. Roll the burner in water to remove the carbon. Disinfect the egg chamber, using a good disinfectant that will not stain or grow on the machine. Examine the thermostat—its sensitivity determines the uniformity of the temperature in the incubator. The thermometer also needs to be tested to determine its reliability.

In starting the incubator use a medium low flame and do not hurry the temperature to reach the proper height. If oil is used to furnish the heat, obtain a high grade of kerosene for it burns with a hotter flame and is less apt to smoke.

Mr. and Mrs. Ed Stevens and two sons of Waukegan were callers at the home of their parents, Mr. and Mrs. Homer Stevens Sunday.

are excessive, and the applicants are classed as "gold diggers." The percentage of those seeking a second divorce is very small.

Court records show two leading causes for divorce actions—namely, mis-mated and dissatisfied wives, and neglect of the home by the husband.

A solo by Homer Tiffany and the reading, "The Going of the White Swan," by Mrs. L. R. Watson, added to the enjoyment of the service.

## MICKIE SAYS—

WE AIN'T HANDIN' OUT NO BUNK ABOUT DOIN' JOB WORK BECUZ WE LOVE TH' SMELLO' PRINTERS INK—WE DO, BUT ITS TH' MONEY THAT KEEPS OUR GANG BUSY TURNIN' OUT STATIONERY, SHIPPING TAGS, POSTERS AND SO ON—AND TH' BETTER PRINTING WE TURN OUT, TH' MORE MONEY WE MAKE, WE'VE FOUND

## CHICAGO AREA IS FAVORED REGION, SAYS SPEAKER

## Lake Michigan Shore One of World's Great Spots, Says Trenary.

Pointing out that the Chicago area and the entire Lake Michigan shore is one of the four most favored regions in the United States, Prof. O. L. Trenary, president of the Kenosha College of Commerce, held the closest attention of his hearers assembled at the Antioch high school last Friday evening at the second annual banquet of the Antioch-Lake Villa Poultry association, at which business men of the community were invited guests.

Stand Pat, Says Speaker  
Prof. Trenary's address on "Community Building" was inspirational. Opportunity abounds in the region, the speaker pointed out, and any one who would build a business, either intensive farming or a non-productive business, would have a greater chance of success here than elsewhere. Real estate values will never grow less, according to Prof. Trenary, who cited numerous instances where values had increased from four to twenty fold in a short span of years. He urged the fortunate property owners and business men of the lake shore area to see their opportunity and not wait for strangers to reap the rewards of foresight.

Minto in Charge  
The meeting was in charge of President Minto. Principal L. O. Bright of the High School acted as toastmaster. Other speakers called upon were F. G. Gorton, H. R. Adams, Elmer Brook, H. G. Gikerson and C. L. Kuttel.

Music selections were given by Mrs. George White and L. R. Stark accompanied by Miss Rice of the High School faculty.

The second annual banquet was a real get-together meeting, poultrymen and business men sitting together and enjoying the excellent chicken dinner served by the Antioch Woman's club. The spirit of good fellowship prevailed throughout.

Smart Men, Marry  
An analyst says that married men are smarter than single ones. Maybe they have to be to get away with it. The idea is not that smartness was indicated in the marrying but was developed in the school of experience. It takes a smart man to maintain a wife in the manner to which she has accustomed herself.

## Sizes of Planets

The naval observatory says that the smallest of the major planets is Mercury; diameter about 3,000 miles. Of the minor planets or asteroids, some are so small that it is impossible to measure their diameters. It is estimated that the smallest are less than 10 miles in diameter.

## Guest Invitation

Mayor and Mrs. S. E. Pollock are invited to witness "The Rush Hour" at the Crystal Theatre, on Tuesday evening, Feb. 7. This is your ticket, published through courtesy of Crystal Theatre and Antioch News.

## FLAG DAY FOUNDER WILL SPEAK HERE FEBRUARY TENTH

Dr. B. J. Cigrand Will Tell  
Origin and Meaning  
of U. S. Flag.

Doctor B. J. Cigrand of Batavia, Illinois, the founder of the American Flag Day Association, will deliver an address at the Antioch high school auditorium at two o'clock Friday afternoon, February 10. Dr. Cigrand comes to Antioch at the instance of the Antioch Post of the American Legion under whose auspices the lecture will be given.

### Cigrand Is Noted Lecturer

His address is on the origin and meaning of the United States flag, wherein he traces the history of our flag from the earliest days down to the present flag. Illustrating his talk with suitable charts and flags, Doctor Cigrand is widely known throughout the United States as an eloquent speaker. He is prominent in the American Legion and in his profession. He served in the Navy during the World War, is a member of the Library Board of Chicago, a member of the Faculty of the University of Illinois, and has written many books.

The Antioch Legion Post is anxious to carry the message of the flag to all residents of Antioch and vicinity, and the general public is extended an invitation to attend.

"Dr. Cigrand is a rapid fire speaker and he holds the attention of his hearers from start to finish," said Archie Maplethorpe, commander of the local post, who has heard several addresses by the Flag Day founder. "The lecture is free and all who attend will find Dr. Cigrand's address well worth their time." Mr. Maplethorpe said.

## FARMERS' INSTITUTE HERE NEXT THURSDAY

## Noted Speakers, Music and Cow Callers Will Provide Fine Program.

A rare treat of varied entertainment and instruction awaits those who attend the Antioch township farmers' institute at the high school next Thursday afternoon and evening. Speakers have been selected to speak on subjects that will appeal to both rural and city people.

In the afternoon, C. C. Pervier, who has had considerable experience and has travelled in Europe, will discuss "The World Food Problem." Mrs. F. D. Mann will follow with a topic that she is well prepared to discuss, " beautification of the Home Grounds."

Bakery Contest  
A bakery contest will be the feature of the afternoon. All entries must be in by 1:30 p. m.

Prizes will be awarded as follows:  
Best Layer Cake—1st, \$2.00; 2nd, \$1.50; 3rd, \$1.00; 4th, \$1.00; 5th, 50c.  
Best Pie (any kind)—1st, \$2.00; 2nd, \$1.50; 3rd, \$1.00; 4th, \$1.00; 5th, 50c.

Cow Callers—Movies  
At 8 o'clock in the evening, Sam Crabtree, another traveler, will talk on the subject "Uncompleted Tasks."

This will be followed by several reels of motion pictures. The evening program will be opened with music by the high school orchestra and a Cow Calling contest.

Both afternoon and evening programs are free and open to anyone.

## Motor Club Manager Tells How to Foil Thieves

Motorists who leave parcels in their cars offer a temptation to thieves to smash locks and break door handles, according to H. M. Brown, general manager of the Chicago Motor Club.

One of the weapons used to break door handles is a gas pipe one inch in diameter and about a foot long. The gas pipe is concealed in a rolled newspaper and is carried in the sleeve. By slipping the end of the gas pipe over the door handle the lock is easily twisted off.

The obvious remedy, of course, says Mr. Brown, is for motorists to take care to leave no parcels or other visible personal property in parked cars.

## Antioch Bowler Smashes Record

John Dupre, one of the most consistent bowlers in Antioch, on Sunday, January 29, bowled a score of 299, just one pin shy of the world's record and a perfect score. Dupre was bowling at Hennings' Recreation Parlor with E. Hennings. They had had two close games and Dupre was trying his best to win. When he got his 7th straight strike the crowd began getting excited and by the time he got his eleventh everybody was nervous. His last shot netted 9 pins for a total of 299. Dupre's score, it is claimed, is about 30 pins more than any previous Antioch record.

## CONFERENCE TOURNEY GAMES START FRIDAY

## Nine Teams Will Compete for Trophy—Opener in Antioch.

The second annual Northwest High School Conference Tournament will be held this week end.

The northern schools will meet at Antioch Friday night while the southern schools play at Franklin Park. The winners of the Friday night games will clash at Wauconda's new gym Saturday afternoon and evening.

### Opener at Antioch

The first game at 7:30 Friday evening will be between Antioch and Wauconda, while the 8:30 game will be between Libertyville and Gurnee. On the season record, the team from Gurnee is the most likely winner out of the northern schools while Barrington seems to have the edge on the other southerners. Preliminary dope points these two teams to play the finals Saturday evening. But dope is a peculiar thing, and since games have been so closely contested this year it would not be surprising to see some upsets.

Antioch, the winner of the tournament last year, is not considered a serious contender, but the boys are hoping that they may be the dark horse.

### Nine Teams in Tournament

There are nine teams in the conference this year, and this fact necessitates the elimination of one team before the start of the tournament proper. The preliminary game will be played between Leyden and Palatine at Franklin Park Thursday at 8:00 p. m.

Antioch plays Wauconda here at 7:30 Friday evening. An hour later Warren and Libertyville will clash in the second game on the local floor. Meanwhile, Bensenville and Barrington will battle for supremacy at Franklin Park, this game to be followed by the winner of the Palatine-Leyden game against Arlington Heights.

### Finals at Wauconda

Friday night's contests having reduced the title contenders to four teams, the scene of battle will be moved to Wauconda. There, the Antioch five, should they have been victors over Wauconda in the opener, will take on the winner of the Bensenville-Barrington game, at 1:30 p. m. Saturday and at 2:30 on the same floor the seventh game of the tournament will be played between the winners of the Warren-Libertyville struggle and the victors in the fifth game, Arlington Heights, Palatine or Leyden.

By winning their game Saturday afternoon, the local eagles will win their chance in the finals, to be played Saturday night at 8:30 o'clock, at Wauconda.

## Boy Scouts in Swimming Test at Waukegan Today

Eight boy scouts of Antioch today are passing their swimming tests at the Waukegan Y. M. C. A. pool, under the supervision of Scout Executive Blodgett.

### NEW CHURCH TO OPEN

St. Andrew's Episcopal Church at Grayslake will hold its first service in the new church building just completed next Sunday. The Festive Opening Service will be in the evening at 7:30 p. m. and the Rev. E. J. Randall, D. D. will be the special preacher. The Rev. H. Campbell Dixon, pastor of the local Episcopal church is also in charge of the work of the Episcopal church in Grayslake.

Rev. A. M. Kralh was in attendance at the conference of Methodist preachers of the Chicago Northern district held at Edison Park Tuesday. Thirty-eight Methodist pastors were present.

## SMALL COUP WINS RECESS OF ASSEMBLY

Session Adjourns to Feb. 7;  
Supreme Court Con-  
venes on 8th.

Springfield, Ill., Jan. 26. — Both branches of the Legislature adjourned today until February 7 in the hope that the Illinois Supreme Court will on that day decide the validity of the 1927 primary election law.

The action was bitterly contested in the House by Cook County Democrats and Republicans, but Governor Small's forces won, 70 to 43.

It was the second victory in as many days for the governor in his battle for an April primary.

Coming without advance warning, the move was regarded as a coup to circumvent the plan of the Chicago leaders to have the House kill an early primary by preventing the governor from mustering the required two-thirds vote to make his program effective. Four of the bills passed the Senate the day before with more than a two-thirds majority.

Although no official assurance has been given that the Supreme Court will decide the 1927 law on February 8, that is the first day of the new court term.

If it was pointed out, the act is sustained, there will be no need of enacting the governor's substitute bills. Should, however, the law be knocked out, the atmosphere then will be clarified and the way cleared for prompt disposal of the pending legislation.

Another advantage seen in the governor's maneuver is that he will have two weeks to tear down the opposition. Representative Michael L. Igou, Chicago, minority leader in the House, charged on the floor that the governor's aid had already started to employ pressure.

"Influence is at work here," he said. "We who are interested in the bills involving the South Park Board and the Sanitary District tax rates are now being told, in effect, that no legislation will be enacted until we meet the terms of certain people."

### Must Step Aside

"You downstate members who are interested in bonding bills, also must step aside to give the primary bills a clear road. There are a number here who are opposed to any primary, but I believe a majority favors a primary in September. The word has gone out we must bow to the powers that be. It is not fair."

Majority Leader Reed Cutler said the "mysterious forces who have chummed front during the last two weeks" are responsible for the situation.

"If we are going to mark time until the Supreme Court has opportunity to render its decision, why were we called down here?" asked Representative Lottie O'Neill.

What effect the governor's coup will have on the Chicago Republican leaders whose support for reelection he would like to have, is a topic for speculation.

Homer K. Galpin, chairman of the dominant organization, received telegrams last night from State's Attorney Crowe and former Attorney General Brundage advising him they favor a primary in September.—Chicago Herald and Examiner, January 26.

## Destroy Old License Plates, Is Warning

Destroy your old license plates or place them under lock and key, is the warning issued by J. H. Braun, general counsel for the Chicago Motor club.

Every year at this time, police records disclose that some serious crimes and numerous automobile thefts are committed by criminals using cars disguised with last year's license plates. A criminal may easily elude identification by the use of old license plates which have been cast into the alley on the rubbish pile. In the interest of the community, motorists should take every precaution to prevent thieves from getting 1927 license plates.

## Mrs. Kralh Is Taken to Wesley Hospital

Mrs. A. M. Kralh was taken Tuesday to Wesley hospital, Chicago, where she will undergo treatment and an operation if deemed necessary. Mrs. Kralh has been severely ill for several weeks and her condition at present is very critical, according to physicians.

## SALEM DAIRY PLANT SOLD; CORPORATION WANTS TO DISSOLVE

New Danger Lights For  
Salem—Students on H.  
S. Honor Roll.

The Salem Co-operative Dairy Co., held its annual meeting at the Salem opera house on Saturday evening, January 28. Directors elected for the ensuing year were: Roger Hutton, Wm. Griffith, Geo. Blumer, Miner Hartnell and Byron Riggs. They will fill offices as follows: President, Geo. Blumer; vice president, Miner Hartnell; secretary, Wm. Griffin and treasurer Roger Hutton. The Boyda Dairy Co., of Chicago having purchased the milk factory from the Salem Co-operative Dairy Company, June 9, 1927, have operated same as a receiving station for fluid milk. The factory has been remodeled and equipped with modern machinery, making a first class plant with a capacity for handling 30,000 pounds daily. The transaction has proved very satisfactory to the dairy men of this section and it is the wish of the Hogda Dairy Co., that more milk be delivered to their plant in the near future. The price being paid for 3.5 milk is \$2.50 per hundred or the prevailing Chicago fluid milk price.

Having sold the property of the Salem Co-operative Dairy Co., a corporation organized under the laws of the State of Wisconsin, the stockholders wish to dissolve and divide their assets. To accomplish this it is necessary to call a meeting for that purpose at which time two thirds of the stockholders must be present. Notice has been sent out by the secretary for an adjourned meeting to be held at the Salem opera house on Saturday evening, Feb. 4, 1928 at which time the matter of dissolution of the corporation will be taken up. Stockholders who cannot attend this meeting are urged to fill out a proxy and mail to the executive committee, thus enabling the corporation to dissolve.

Two new electric wig-wag danger signals have been installed at the Northwestern R. R. station.

Dorothy Haphengst and Gordon Dix are on the honor roll at the Wilmet high school.

There is to be a community gathering at the church Friday evening. Supper is to be served by the men from 7 to 8, after which a general program will be given.

Friends of Lee Minna will be glad to hear that he is improving at the Mayo Brothers hospital.

Mr. and Mrs. John Feuler of Libertyville called on Salem friends Saturday evening.

Mr. and Mrs. Lester Smith spent Sunday with Mr. and Mrs. Alvin Marsh at Woodworth.

The Booster luncheon met with Mrs. Fred Schonscheck Tuesday. Prizes were awarded to Mrs. Elvin Manning, Mrs. Frank Dix and Mrs. A. J. Murray.

The church is to have a new piano and the Brass Band school P. T. A. has purchased the one from the church.

Miss Florence Bloss is home from Madison for her vacation.

Mr. and Mrs. Harold Flenker of Burlington visited at the home of Mrs. Flenker's parents, Mr. and Mrs. Carl Richards.

Mr. and Mrs. Harry Schonscheck of Racine visited his parents, Mr. and Mrs. Schonscheck Sunday.

Mrs. A. J. Murray has been ill for the past week with the grip.

The Priscillas meet at the home of Mrs. Fletcher Thursday. Pot luck lunch will be served.

Try our Danish coffee cake for \$5c. Robt. C. Worsley.

A. J. Murray went to LaCrosse on Thursday to attend the funeral of A. H. Dahl.

Mr. and Mrs. Homer Ormsby of Geneva spent a few days last week with their daughter, Mrs. Campbell.

Mrs. Lubkeman and daughter, Hazel visited at the Frank Schmidt home recently.

Miss Margaret Schiav, who is employed in the Kenosha Daily News office in Kenosha is spending her vacation with relatives in Chicago.

Miss Ida and Louie Jarnigo gave a party at the Old Star Inn on Saturday evening for their friends. The evening was passed playing bunnio and dancing.

The Pioneer Boys club played basketball with the boys from Bristol on Saturday. The score was in favor of Salem. Next Saturday they play the Silverlake boys.

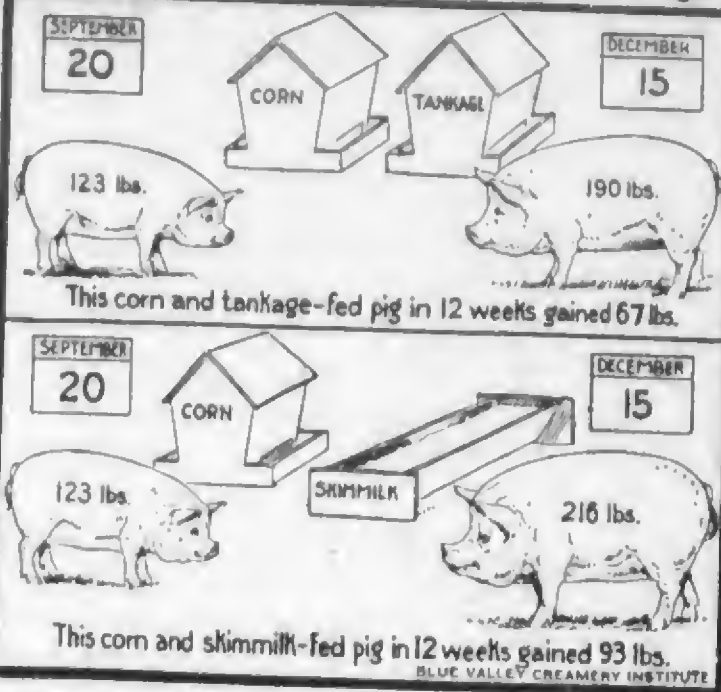

The Salem P. T. A. met at the opera house Tuesday, Feb. 7. Mrs. Tremper will give a talk and the Wilmet glee club will sing.

Mr. and Mrs. Will Griffin attended the funeral of Mrs. Griffin's uncle, Frank Clark at Milburn Saturday.

### Wild Ether Waves

One reason why you can't tell what the wild waves are saying is because there are too many wave lengths.

## Skimmilk Best Protein Feed For Pigs

## BIG GAINS MADE BY PIGS ON SKIMMILK

Dairy By-Product Found to  
Hold Advantage Over  
Tankage in Hog Ration.

No protelo feed equals skimmilk for making big and economical gains in pigs, declares the Blue Valley Creamery Institute. Only one other rich protein concentrate approaches skimmilk as a valuable supplement for feeding with corn or barley and that is tankage. On farms where there is not enough skimmilk to go around, tankage is used to excellent advantage to make up the well-balanced ration required for making the best and cheapest gains in young pigs. But where enough cows are kept to provide sufficient skimmilk, no other protein concentrate is needed to make up a perfectly balanced pig ration—one that

furnishes all the feed nutrients required to build bone, muscle and fat most rapidly, most efficiently and at lowest cost.

The good results of skimmilk feeding to pigs are well demonstrated in the results obtained in an experiment at the Ohio agricultural experiment station where six different groups of pigs were fed for 12 consecutive weeks to determine the value of five different protein concentrates as a supplement to corn. In each case the ration was balanced properly. However, the pigs receiving skimmilk made the highest gains, an average of 93 pounds for the period, or over 1.1 pounds a day, for each pig. They made the best growth of bone as well as the strongest, which is highly desirable for making good body weight and for the prevention of cripples on the way to the market. They also made the best type of market hogs because they ranked highest in dressing percentage. The corn-tankage fed hogs also made good gains, good bone development and high dressed weights. They were superior in this respect to the hogs receiving other protein concentrates, with the exception of skimmilk.

## TREVOR SOCIAL CENTER HALL ASSN. ELECTS OFFICERS

Mrs. Reynolds Dies in Chicago—John Collier's Death Reported.

The shareholders of the Social Center hall association held their sixth annual business meeting at the hall Tuesday evening, January 24. The officers elected for the coming year are: President, William Schilling; vice president, Richard Moran; secretary, Mrs. Bertha Oetting; treasurer, Mrs. Annie Smith and director, Mrs. Gertrude Schilling.

Wednesday Mr. Reynolds received the sad news that his wife had passed away suddenly at the home of a daughter in Chicago, where she went a few weeks ago.

On Thursday the Patrick families received a message saying that their cousin, John Hilton Collier, had died suddenly that morning at his home at Hollywood, California. Mr. Collier will be remembered by the older inhabitants by his visits at the Patrick homes. Burial was in Hollywood cemetery on Saturday afternoon. His wife, a daughter, Mrs. A. Strong, a son, Ben Collier, who reside in Hollywood, and a brother, George Collier, of Farmer City, Ill., survive him. Mr. Collier was a member of the Loyal Legion of Civil War Veterans and a thirty-second degree Mason.

John Heinrich of Chicago spent Saturday in Trevor.

Mrs. John Geyer attended a miscellaneous shower for Mrs. Howard Johnson at the Episcopal parish hall, at Antioch, Monday night.

Mrs. Joseph Smith entertained the Fancy Work club Thursday afternoon.

Mrs. Alice Terping and Miss Sarah Patrick were dinner guests of Mrs. George Brown at Bristol Thursday.

Friends have received word of the death of a former resident of Salem, Mrs. Charles Coggin at her home at Cocoa, Florida.

Elbert Kennedy is making an indefinite visit with his daughter, Mrs.

## R U Superstitious

Do You Believe In Signs ?

If you do you are a judicious advertiser and a good business man. Judicious advertising Always Pays and especially when you advertise in a paper that is read by everybody in its territory.

## FARM AUCTION

The undersigned, having decided to discontinue farming, will sell at public auction on the Albert Jack farm, located 1 1/2 miles northwest of Millburn, 5 miles southeast of Antioch, and 3 miles east of Loon Lake, on

THURSDAY, FEBRUARY 9, 1928

Commencing at 10:00 a. m., the following property:

HORSES—8 good work horses, 8 to 10 years old and weighing about 1500 lbs. each.

40 CATTLE—23 pure bred and high grade cows, Holstein and Guernseys, some fresh, and balance springing close at day of sale. This is one of the best herds of cattle in the county, have size, and are heavy producers. Some have high C. T. A. Records. 11 heifers 3 bulls. All T. B. tested.

HOGS—2 Chester White brood sows, and 2 fat hogs.

Quantity of feed and grain, wagons, machinery and tools and other articles too numerous to mention.

Good Free Lunch at Noon

Usual Terms.

EDWARD "TEDDY" REDDING, Prop.

L. J. SLOCUM Auctioneer.

J. E. BROOK, Clerk.

## Quaker Feeds Will Make Money for You

Quaker Feeds—for poultry and all livestock—are made by The Quaker Oats Company. Each and every feed has a formula—and a record—that insures you profit. Only pure, fresh ingredients are used. They're all clean feeds—made in the modern Quaker mills from fresh, choice materials. They all cost less to use because they do more, and do it faster. Come in, talk over your feed problems and learn how inexpensive it really is to feed efficiently.

Alfred Oetting, Chicago, visited his cousins at the Charles Oetting home Sunday.

Mrs. Charles Oetting and Mrs. Jos. Smith were Silverlake visitors Monday.

## BRISTOL DRIVERS COME TO GRIEF ON ICY ROADS

Card Parties Are Enjoyed  
—Aid Society Meets at  
Alderson Home.

Numerous auto accidents occurred Wednesday on the cement highway which runs through Bristol, owing to the icy condition. Among the unfortunate ones were several Bristol drivers. As Mr. and Mrs. Edward S. Fox were approaching the village, they met a stalled car and upon attempting to pass, their sedan skidded and landed in a deep ditch bottom side up. Some how the occupants landed on the ground faces downward, although no glass was broken. Mrs. Fox was terribly nerve shocked while Mr. Fox had a sprained hand. The car was taken to a garage for repairs.

Mrs. Jean Thorne had similar experience descending the hill leading north. Her car also skidded, went over two road posts into a deep ditch and did not stop until it hit the open plowed field. She also, was greatly shocked but sustained no serious injury. Her sedan was damaged and taken to a garage. It is reported that Mrs. Hattie Hollister started up two telephone poles with her car but received no serious injuries. Mrs. James Peterson also met with a narrow escape.

The Ladies Aid society will meet Thursday afternoon with Mrs. John Alderson.

Mr. and Mrs. Edward Jorgensen entertained the following guests Sunday. In honor of Carol's birthday and also the birthday of Soren Peterson is cousin of Mr. Jorgensen; also Mr. and Mrs. Wm. Peterson and son, Mr. and Mrs. William Gabrielsen and son, Mr. and Mrs. Maurice Jorgensen and Miss Ruth Payne of Union Grove. Monday Mrs. Jorgensen entertained again for her daughter as follows at a 4 o'clock dinner: Evelyn Woodbury, Frances Long, Marjorie and Mildred Murdoch.

Miss Florence Murdoch was a week end visitor at home. Mr. and Mrs. Frank Fox attended the funeral service of their cousin, Lee Sherwood, age 35 years, at Lake Villa Thursday. Death was caused by pneumonia. He was in a Waukegan hospital at the time of his death. He leaves his wife and five children to mourn his loss besides his parents, who were in Florida and many other relatives and friends.

Mr. and Mrs. Floyd Frankson from Preston, Minnesota, and Rev. and Mrs. F. E. Frankson from Milwaukee were guests of Mr. and Mrs. Frank Gelten part of last week.

Miss Vesta Minnie of Burlington was a week end guest of Miss Florence Selby.

Try our apple pie, like mother makes, 35c. Robt. C. Worsley.

Elmer Getke, of Slades Corners and Mr. and Mrs. John Garglin of Antioch were recent visitors at the Charles Selby home.

Mr. and Mrs. James Brooka and Lorraine of Brighton were recent visitors of Mr. and Mrs. R. H. Campbell.

Mrs. Wm. Lewis has been laid up with infection in her hand, the past week, due to poison from a rusty fork.

Abe DeVuyst was on the sick list the first of the week and unable to run the barber shop.

Miss Eunice Dixon entertained Miss Florence Selby and Miss Vesta Minnie for dinner Saturday evening.

Charles Castle is on the sick list. The German Ladies Aid will be entertained by Mrs. Margaret Maleski.

Mr. and Mrs. Ted Zirbel entertained as follows Sunday in honor of the baptism of their son, Warren Chester. William Windorf and family and Jacob Miller of Pleasant Prairie, Henry Zumaeh and family of Union Grove, Rev. and Mrs. Berg, besides relatives. A sumptuous duck dinner was served at 5 o'clock.

Mrs. Helen Shumway and infant son arrived home Sunday from the Kenosha hospital.

Harold Walker spent the week end at the Edward Firchow home. Mrs. Firchow accompanied him home on Monday, preparatory to Mrs. Walker and baby returning.

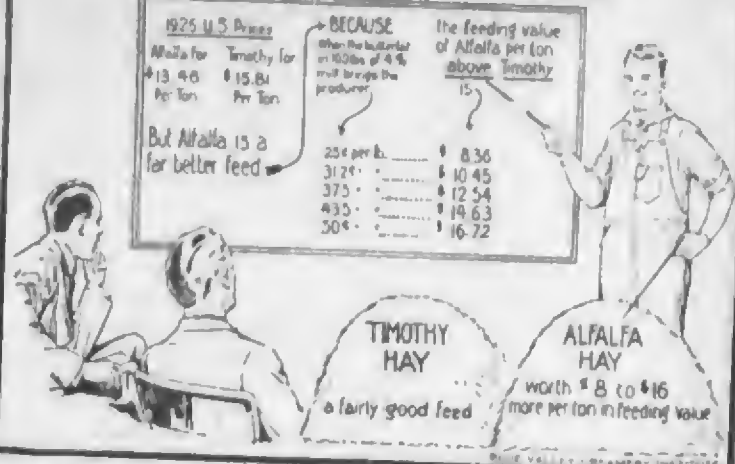

Mr. and Mrs. Roland Lewis, Miss Emma Lewis and Mr. and Mrs. Jake Maleski attended a party given by Louis and Ida Jarugo of Salem, in the DeBell's hall at Brass Hall Corners Saturday evening.

Miss W. Price was a recent guest of Mrs. D. L. Burgess. On Sunday they entertained for dinner as follows: Mr. and Mrs. George Elia, Mrs. A. C. Weed, Mrs. A. A. Burgess and Mr. and Mrs. L. L. Burgess of Rochester. Mr. and Mrs. Louis Fowler and son, Horace, also called there Sunday.

Mr. and Mrs. Wm. Brickner from Garrison, N. D., are visiting his sister, Mrs. George Davies and family, while on their wedding trip.

The card party held at the Bristol school house Friday evening resulted thus: 1st score for "500", Jacob De Graff and Mrs. Jake Maleski, consola-

## Alfalfa Costs Less Than Timothy But As Feed Beats \$8 to \$16 A Ton

## ALFALFA FEEDING VALUE IS HIGHEST

Experiment Shows That It  
Not Only Costs Less but  
Is Worth More.

On the average market in the United States last year, timothy hay cost more per ton than alfalfa, but alfalfa is worth from \$8 to \$16 a ton more in feeding value than timothy, says the Blue Valley Creamery Institute.

The value of alfalfa over timothy depends on the return the farmer receives for a pound of butterfat. When the butterfat in 100 lbs. of 4% butter-

fat milk brings the producer 25¢ a pound, the feeding value of alfalfa per ton over timothy is \$8.30; when it is 27¢ a pound, \$10.45; 37.5¢ a pound, it is \$12.54; 43.5¢ a pound, \$14.63; and when butterfat fetches 50¢ a pound as it sometimes does, alfalfa is worth \$16.72 a ton more than timothy.

These estimates are based on a feeding experiment with 16 dairy cows at the Illinois College of Agriculture. Records were kept for 12 weeks. For six weeks, timothy was fed. The alfalfa was fed for six weeks. During these 12 weeks, all the cows received the same rations otherwise, which consisted of mixed grains and corn stover. The milk production in favor of alfalfa was 2,792 more pounds of milk. This amount of milk at the price received per 100 lbs. was worth \$30.30. Exactly 3.34 tons of hay was fed during this time. Therefore, in this test the alfalfa hay was worth \$10.50 per ton more than timothy.

## MICKIE SAYS—

THIS IS BOOSTING HEAD-QUARTERS WHEN FOLKS HAVE SOMETHING GOOD TO PUT OVER ON THE TOWN, THEY USUALLY COME IN TO GET OUR HELP IN PUTTING IT OVER BECAUSE THEY SAY NOBODY KIN BOOST LIKE THE OLD HOME NEWSPAPER.

## JAZZ TUNE ENDS WHEN ELEPHANT DOUSES PLAYERS

Ragtime Wasn't Popular  
With Asiatic Pachyderm  
in Philadelphia Zoo.

Philadelphia.—Poetry, a twelve-year-old Asiatic elephant at the Philadelphia zoo, blew a trunkful of water over an orchestra which had come to play for her in behalf of science the other day.

The act was done during the playing of a ragtime piece, Poetry, chained ten yards from the orchestra, stretched forward until the end of her trunk dipped in the water of the pool in which the elephants bathe each afternoon.

With deliberate movement the elephant's trunk was raised and aimed at the musicians. Having reached the proper elevation Poetry blew and the ragtime piece ended with a discordant burst of sound in a scramble to escape a bath. That was Poetry's reaction to music.

Monkeys Dialize Jazz. The orchestra played for the monkeys at the zoo so that C. Emerson Brown, director of the zoological garden, could record their actions. Classical music achieved a victory over jazz in the monkey house. The first rumble, squeaks, chirps and bleats from the instruments as they were tuned up in the monkey house brought consternation to the occupants. Big and

Blew a Trunkful of Water Over the Orchestra.

little monkeys, chimpanzees, orang-utangs, mandrills, marmosets and all the others betrayed the most lively curiosity, mingled with other emotions. Noticing the diverse reactions, the musicians tried each instrument separately. So the drummer tapped a rat-a-tat-tat on his drum and the monkeys covered in corners of their cages in evident fear.

Violin Music Soothing. Then the violinist swung his bow over the strings and instantly the monkeys became quiet. Some came forward to the bars of their cages and gave evidence of finding the sound soothing. But the saxophone and the trumpet, each in turn, sent shivers of fear once more over the audience and the moment the musical instruments were stilled the monkeys set up an angry chattering.

But when the bass viol granted out a few notes the monkeys gazed at each other and at the instrument in seeming amazement. They crowded to the bars and blinked their eyes as if trying solemnly and with all the power at their command to under-

## NEWS OF WILMOT COMMUNITY

Mrs. Frank Burroughs entertained at dinner and cards Saturday afternoon for twelve of her friends in honor of her birthday. Mrs. Flora Westlake received high honors and Mrs. Pillsbury, consolation.

Mr. and Mrs. George Higgins and Geraldine have all had the flu.

Mr. and Mrs. A. C. Stoen and daughter were in Waukegan Saturday.

Mr. and Mrs. Paul Voss entertained the members of the Randall P. T. A. at their home Tuesday evening. Cards were played and refreshments served.

Mr. and Mrs. Earle Thomas, Greenwood, spent Sunday at A. C. Stoen's. Dorothy Tyler of Kenosha was out for the week end with Grace Carey.

The Lutheran Ladies Aid will meet at their hall Thursday afternoon.

L. Wald of Burlington was a recent over Sunday guest of Mr. and Mrs. Eli Vincent.

Mrs. Ted Stoen and Margaret were in Waukegan Thursday.

Donald Tyler of Milwaukee spent from Tuesday until Monday with Grace Carey.

Mrs. Harry McDougall was in Chicago for the day Wednesday.

Lyle McDougall was home for the mid-semester vacation from Marquette.

Mr. and Mrs. Wm. Volbrecht were recent dinner guests of Mr. and Mrs. Fred Volbrecht of Bassetts.

Rev. Braskey spent the first of the week in Watertown where he was called by the illness of his sister.

Mr. and Mrs. W. Winn and sons spent Sunday with Mr. and Mrs. L. Hegeman.

Arthur Holdorf was in Waukegan Monday.

Try our Danish coffee cake for 35c. Robt. C. Worsley.

Mr. and Mrs. Irving Carey were in Chicago Sunday for the day with Miss Blanche Carey.

Rev. and Mrs. Monkman and Mr. and Mrs. T. Bogda, Sr. of Silverlake were Sunday guests of Mr. and Mrs. John Sattelle.

Mr. and Mrs. John Harn, of Hammond, spent Sunday with Mr. and Mrs. Wm. Volbrecht.

Mr. and Mrs. Ben Kanis gave a luncheon party Saturday evening for thirty of their relatives. Light refreshments were served.

Union Free High School

The last six weeks of the first semester showed a decided slump in the averages among the students of the high school. But two students, both freshmen, succeeded in maintaining places on the special honor roll, with grades of ninety or more in four subjects. Those are Hazel Schold and Ruth Pepper. The following students earned places on the honor roll, with four grades of eighty-five or more: Whilanta Haggerty, Bernice Harin, Mary Daly, Gordon Dix, Irene Haase, Iola Harn and Dorothea Kaphengst.

The high school basket ball team

## PERSONAL MENTION

Mrs. W. F. Barber returned Wednesday from Waukegan, Illinois, where she had been called to attend the funeral of the infant son of Mr. and Mrs. Frank Barber—Chetek, Wis.

Mrs. and Mrs. Martin Jerde and daughters, Myrtle and Shirley, and Mrs. Jerde's sister, Vera, and Rhoda Frank of Wilmet, called on Mr. and Mrs. J. W. Gilpin Saturday night.

Mrs. Fred Paasch entertained the Lutheran Ladies' Birthday club of Wilmet, at her home Thursday, Jan. 26. The time was spent playing five hundred and bunco.

Oscar and Clarence Olcott of Waukegan spent Sunday afternoon at the R. W. Wildhagen home.

Mr. and Mrs. Otto Hanke spent Sunday afternoon with their son-in-law and daughter, Mr. and Mrs. J. Walter Gilpin at Tecumseh farms.

Mrs. W. H. Barber of Waukegan and daughter, Mrs. John Barry, of Milwaukee and friends from Waukegan were Tuesday evening callers at the home of Mrs. C. A. Clark.

Mrs. Hesselgrave and Mrs. Maplethorpe were callers Monday at the Lake County hospital to see Miss Lottie Rudolph, who is a patient there.

Mrs. James Todd of Twin Lakes spent Sunday with her mother, Mrs. C. A. Clark.

Mr. and Mrs. Eugene Sheehan left Antioch January 21 for Jacksonville, Florida, where they will spend the remainder of the winter.

Try our apple pie, like mother makes, 35c. Robt. C. Worsley.

Mrs. Wm. Herman has returned to her home here after having spent the past week at Wadsworth with her sister, Mrs. Lux, who has been quite ill.

Mr. and Mrs. Andrew Harrison, Mrs. A. O. Hesselgrave, Mrs. J. M. Sanborn and Mr. and Mrs. James Todd of Twin Lakes, attended the funeral of their uncle, Frank Clark, at Millburn on Saturday.

Mrs. Andrew Harrison was calling on friends at Waukegan on Wednesday afternoon.

Mrs. Hubert White of Russell was at the home of her mother on Monday.

Have you tried our 50 cent Blue Plate luncheon. Robt. C. Worsley.

Mrs. Frank Wilton and Miss Mary Wilton were calling on relatives in Waukegan Monday.

George Rhodes was a Chicago visitor Tuesday.

Mr. and Mrs. Fred Hawkins, Mrs. Charles Sibley, Mrs. Wm. Lasco, Rev. Dixon and mother, Mr. and Mrs. W. H. Osmond, Mrs. John Horan, Mrs. Lee Waters and Mrs. Anna Kelly attended the funeral of Rev. Kolkebeck at the church of the Atonement, Chicago, last Friday.

The Ladies' Guild meets with Mrs. Kettelhut on Wednesday, February 8. Everybody welcome.

Miss Jennie Potter was a Chicago visitor on Tuesday.

Lester Nixon, of Illinois Wesleyan University of Bloomington, and Miss Kathryn Krahl, of Northwestern, were among the college students who spent their semester vacations here.

### Medicine Glass

Medicine should never be measured in spoons, as they vary so much in size. Every medicine closet should be equipped with a small marked glass made especially for this purpose.

### Supply of Castor Oil

Vast fields of castor oil plants grow wild in Mexico, it is reported. There are two varieties, one of woody growth, whose seeds yield about 30 per cent of oil, and the other of herbaceous habit, with seeds yielding about 50 per cent of oil.

**Crystal Theatre**  
FRIDAY and SATURDAY  
FEBRUARY 3-4

## Red Devils To Play At Polly Prim Tavern

In accordance with the plans already made, the Polly Prim Tavern, Melbourn, Ill., will continue with their policy of changing and rotating each Saturday night. The next dance Saturday, February 4, will see the Illinois Red Devils of Elgin on the platform replacing Millar's orchestra.

The Red Devils have a long list of achievements in this vicinity to their credit. Every one is familiar with their success over various radio stations and also through their theatrical engagements. The band is composed of seven men, each an entertainer of merit and will furnish something different and novel in the way of dance music.

Admission as usual fifty cents per person with park plan or ten cents a dance being employed.

### Concentrated Living

The country man lives on a farm where he has room to keep a cow. The city man is cramped up in a flat where he even has to use condensed milk.—Arkansas Thomas Cat.

### CARD OF THANKS

We desire to express our heartfelt thanks to the Masonic Order and to all neighbors and friends who so kindly assisted us in our bereavement. We also extend thanks to the singers and those who sent flowers.

Mrs. W. S. Rinear,  
L. L. Rinear,  
Mrs. J. R. Cribb,  
Mrs. F. A. Drom.

**\$5**  
**For a Name**

We will give \$5.00 in gold to the person furnishing us with an appropriate name and slogan for our new bread wrapper. The slogan should pertain to quality, wholesomeness and cleanliness.

All suggested names and slogans must be received by February 15, 1928.

The winner will be announced in the Antioch News on Feb. 23.

This contest is open to young and old alike.

## Churches

### St. Ignace Church Notes

Episcopal  
Calendar — Septuagesima Sunday, 10 days before Easter.  
9:00 a. m.—Holy Communion.  
10:00 a. m.—Church School.  
11:00 a. m.—Holy Eucharist and Sermon.

St. Ignace's Day was duly observed at the Patronal Feast of the Parish on Wednesday, February 1st. St. Ignace's was the Second Bishop of Antioch of Syria and was martyred by being fed to the lions in the arena at Rome in 112 A. D. St. Peter, the Apostle was the first Bishop of Antioch before his translation to Rome. St. Ignace's was the special disciple of St. John the Apostle. St. Ignace's wrote many letters to the churches which we still have and portions of them were read at the Special Service.

Next Sunday the Rev. E. J. Randall D. D. Chancellor of the Diocese of Chicago will be our honored guest. The hour of the service of the Holy Communion has been changed to 9 a. m. instead of the usual hour of 8 a. m. It is to be hoped that many will take advantage of this opportunity.

EVERY PAIR  
GUARANTEED

A new pair if

**Otto S. Klass**

Outfitters for Men and Boys  
Phone 21

ity to make their pre-Lenten Communion at this time or at least attend one of the services. Eucharist at 11 a. m. and Dr. Randall will preach.

The Church School is having a campaign to get the Bible used in the home and Grace said before meals. The Bible is the only text book used in the Church School this year with the Churchman's Calendar. It has worked out very well.

### Methodist Notes

Dr. J. Hastie Odgers, the district superintendent of the Chicago Northern District, is to preach next Sunday morning at the Methodist church. Dr. Odgers is one of the best known preachers in our district, having served several of the largest churches in Chicago. He has chosen as his subject "Christian Worship," which is also the subject of his most recent book. The matter of worship as compared with preaching is holding the attention of thinking Christian people at present so Dr. Odgers' talk will be very timely as well as helpful in the thinking through of this problem.

Rev. A. M. Krahl will preach again

SURPRISE SHOWER GIVEN  
AT WILDHAGEN HOME

Mrs. Fred Paasch and Mrs. W. F. Lasco, Jr., were hostesses to a number of relatives and friends at a surprise shower given in honor of Mr. and Mrs. Raymond Wildhagen at the F. W. Hatch farm, west of Antioch, on Saturday evening, Jan. 28, 1928. Progressive euchre was played. The prizes going to Mrs. E. F. Krueger, Mrs. Wildhagen, Mrs. Raymond Miller, W. F. Lasco, Jr., Fred Paasch and Herman Schulz. Lunch was served.

LADIES MAKE CONFESSIONS  
AT HARD TIMES PARTY

One of the most enjoyable social events of the week was the "hard times" party given by the Ladies Aid members of the Methodist church on Tuesday evening. About forty were present. All were dressed in comical costumes and the ladies had a good time all to themselves.

The party was given mainly to allow aid society members to tell how they had earned the money that has been contributed to the society during the past few weeks. For the most part the stories of the money-earning efforts were told in rhyme.

MISS JONES HOSTESS TO

Mrs. Joseph Fillweber  
Answers Final Summons

Funeral services for Mrs. Joseph Fillweber, who died at her late home here Friday, January 27, were held Monday at the home, Rev. S. E. Pollock and Rev. H. C. Dixon officiating. The Antioch Royal Neighbor lodge had charge of the ceremonies at the Hillside cemetery.

## Was 60 Years of Age

Virginia Maude Cornish was born at Solon Mills, Illinois, March 25, 1867, and she spent the early years

of her life in that village. She was united in marriage to Joseph Fillweber, February 7, 1887, at Genoa City, Wisconsin.

For six years they made their home in the vicinity of English Prairie, where their three children were born—Sybil M., Pearl E., and Harold E. In 1898 they moved to Antioch where her remaining days were spent.

She leaves to mourn her loss, her husband, three children and one sister, Mrs. Vogel, of Solon Mills, eight grandchildren, many other relatives and a host of friends.

## CARD OF THANKS

We wish to express our sincere thanks for the assistance and kindness shown us during our recent bereavement. Especially do we thank the Royal Neighbor lodge, American Legion, Firemen and Odd Fellows.

Joe. Fillweber and family.

# LAKE VILLA LADY, 91, HELPS PREPARE BIRTHDAY DINNER

Effinger Family Have Nar-  
row Escape From  
Asphyxiation

Mrs. S. M. Sherwood celebrated her 91st birthday at her home here last Friday. Her son, Frank Sherwood, was home over the week end, her daughter, Mrs. Hendricks, of Ingleside, was present and her sister, Mrs. Sophia Hall of Chicago, came out to celebrate the occasion. Mrs. Sherwood is still quite active and helped to get the dinner on her birthday. Many cards were received in honor of her birthday. She also received flowers and personal calls.

The John Effinger family had a narrow escape from death Sunday morning when they were overcome by gas from a hard coal burner. Mr. Effinger roused up and tried to get up, but fell unconscious. Mrs. Effinger, without dressing, ran to the nearest neighbor, Albert Kappeler for help, and it happened that Dr. Jamison was in the village, so he came immediately. Billy, the baby, year and a half old was the least affected and the others were able to be about on Monday, though not fully recovered.

## Lake Villa Community Church Program for Sunday

Prologue, Miss Margaret Wilkinson. Call to worship, "The Lord is in His Holy Temple." Let all the earth keep silence before Him. Orchestra, song congregation and choir, hymn 279, the Apostles Creed in unison, prayer and Lord's Prayer in unison, orchestra special. Responsive reading 305, Gloria Patri offering, announcements, Junior choir special, orchestra, choir and congregation hymn 105, sermon, Rev. N. S. Nye of Grayslake, orchestra, choir and congregation hymn 199 Benediction and Doxology.

We use the Church School book.

Mr. and Mrs. Raymond Sherwood were called home from Florida by the death of their son.

The Sand Lake school is closed temporarily, as the teacher, Miss Coon, resigned because of ill health, and has returned to her home at Champaign. County Supt. Simpson expects to be able to find a teacher for it soon.

Harold Sykes, who has been living with his aunt, Mrs. Val Weber, has returned to his home in Florida.

Mr. and Mrs. Troy Ballenger returned home Saturday from Washington, D. C., where they went to accompany the body of Mr. Ballenger's brother who was so severely injured in an accident recently that he died from the effects.

Miss Margaret McKelvey celebrated her tenth birthday at the parsonage Saturday by entertaining a number of her classmates. Games were played and lunch was served, and the children had a glorious time.

Miss Ruth Carpenter of Chicago was a guest of her friend, Miss Michael Scott, over the week end.

Try our Danish coffee cake for 25c. Robt. C. Worsley.

Mr. and Mrs. Carl Reinbach and Betty Jane were guests of relatives in Chicago Sunday.

Mr. and Mrs. Albert Kappeler were called to the city Monday by the death of a friend.

Mrs. Swanson has sold her lunch counter and filling station on Route 21 and has rented the Steffenberg cottage adjoining the Swanson garage on Grand avenue.

Mr. and Mrs. Wm. Fish accompanied Mr. and Mrs. Cunningham of Grayslake to Kenosha last Wednesday evening where Mr. Cunningham was installing officer for the M. W. A. at their installation of officers.

Bojan Hamlin has been very ill with pneumonia the past week, but is now on the gain, and out of danger.

Frank Clark, father of John Clark, died at the home of his son last week, pneumonia being the cause of his death. The funeral was held Saturday at Millburn their late home. His aged wife, four sons and two daughters survive.

Mabel McCann, daughter of Hugh McCann, was quite ill last week.

Fred Miller, who is employed at the Wm. Walker home, spent last week with his sister and friends in Kenosha.

Mr. and Mrs. Sidney Barnstable were pleasantly surprised at their home last Saturday evening, on the twenty-fourth anniversary of their marriage, by their neighborhood friends who came for a party and the occasion was a very pleasant one.

The eighth grade class, with a few invited guests, held their monthly class party at the school house on Friday evening. Helen Burnett and Howard Fish were the hostess and host, and Miss Scott and Mr. Beck with were the chaperones. They report a very enjoyable time.

Mr. and Mrs. Ben Dicks were in Chicago a few days last week, being called there by the death of a relative.

# INDUSTRY HELPS AGRICULTURE BUILD UP THE SMALL TOWN

Decentralization of Manufacturing Brings Markets for  
Products Closer to the Farm—Gives Employment  
and Better Standards of Living to  
Rural Communities.

By T. R. PRESTON  
President, American Bankers Association

NO class of people has been more diligent in trying to understand the agricultural problem than the bankers of this country. The agricultural problem is a real problem and demands the best thought of everyone. This country cannot continue along happy lines with only sections of the country prosperous. Prosperity must be passed around if anybody is long to enjoy it. This question cannot be solved by the farmers alone, but the majority opinion is that there is no legislative remedy for agriculture. It is an economic question pure and simple and must be worked out accordingly.

T. R. PRESTON

A few years ago it was contended that agriculture did not have sufficient credit facilities. That proposition was often made a political question. I do not presume there are many who will question the fact that agriculture now has ample credit facilities.

## Mixing Farms and Factories

It is a fact that no community and no state has ever become great purely from agriculture. It is not to the interest of New York and other great centers to see the small communities and the agricultural sections losing their wealth and importance. In the end it will react upon them to their disadvantage.

There seems to me a real remedy for these small communities and also for agriculture. This remedy, which is the mixing of industry with agriculture, is now being applied in many localities with satisfactory results.

Industry and agriculture are better balanced in Ohio, North Carolina and Pennsylvania than in any other states of the Union, and in these states there is no serious agricultural problem and we hear little complaint from the farmers. This mixing of industry

and agriculture is called by some decentralization of industry. I would not suggest that manufacturing institutions move from the cities to the small villages, but I do think it would be better for this country for future industries to be placed in these small villages rather than to be further congested in the great centers. This would in part also be a solution of our labor problem. The bringing of industries to small villages increases the market for agricultural products, gives employment to surplus labor, elevates the standards of living, increases public revenue, reduces taxes and vastly increases educational facilities.

Twelve years ago Kingsport, Tennessee, had a population of about one thousand. Great industries like a large camera company, a big cement plant and a number of other industries were located there partly through the influence of an outstanding New York business man. In a little more

Mixing Industry With Agriculture Means Prosperity for Rural Districts

and agriculture is called by some decentralization of industry.

I would not suggest that manufacturing institutions move from the cities to the small villages, but I do think it would be better for this country for future industries to be placed in these small villages rather than to be further congested in the great centers. This would in part also be a solution of our labor problem. The bringing of industries to small villages increases the market for agricultural products, gives employment to surplus labor, elevates the standards of living, increases public revenue, reduces taxes and vastly increases educational facilities.

Two Striking Examples  
I believe I can give you two striking examples.

## THE BANKER-FARMER MOVEMENT GROWING

There are several reasons for the growth of the banker-farmer movement in Pennsylvania. William S. McKay, Chairman of the Agricultural Committee, Pennsylvania Bankers Association, has reported to the Agricultural Commission of the American Bankers Association. The cooperation and leadership of the county agents in the several counties of the state; the appointment and functioning of county chairmen of agriculture known as Key Bankers, one of whom there is in each county of the state; and the organization of county bankers associations, whereby agriculture is given consideration by all the banks, are responsible for this interest. The following table shows the activities for the year:

Project	Number of Counties
Sent young farmers to state college for special course	5
Encouraged farm shows	16
Held agricultural tours	6
Sponsored various club activities	28
Gave illustrated lectures on poultry, cow testing, and improved farm methods	1
Distributed purebred livestock, chicks, and disease-free potatoes	13

"There is probably no class of business men that has a greater opportunity for helpfulness than the bankers in this movement," declares Mr. McKay. "It builds up a substantial community which makes for better banking institutions; it adds to the material prosperity of our state, but above all, it is the expression of a service which will react favorably upon the character of all interested."

## BANKERS HELP OUT

The Oklahoma Bankers Association for the past twelve years has financed through its live groups ten scholarships in the A. & M. College at Stillwater. The winners are chosen by the Extension Department of the college on the merits of the club work done by the boys and girls over a certain period of time. The groups of the association finance the first year of the winner's college work.

The president of a national bank in Fayetteville, Arkansas, has been credited with doing more for the farmers of his section than any other one man. His work has consisted of introducing pure bred Holstein cattle into his county, helping employ a county agent, donating prizes to boys and girls in club work, and distributing better seed.

Here are some of the things accomplished in Randolph County, Ark. with the help of bankers last year: forty-three purebred gilts were bought at a reasonable price and placed with boys and girls, on notes; three thousand eggs from high producing hens were distributed with the idea of developing flocks of at least one hundred hens on every farm; four pure bred Jersey bulls whose dams had a record of over 700 pounds butterfat, have been purchased by the banks and will be paid for out of service fees.

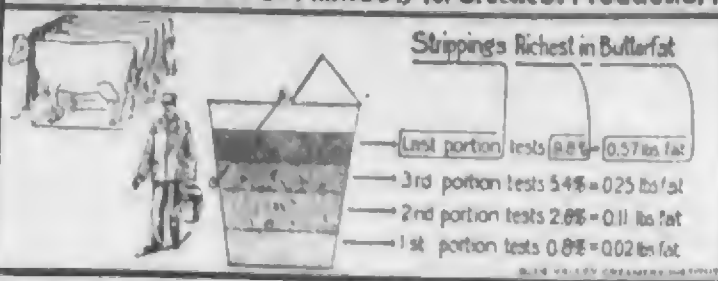

## Curious Fish

The small fish can fill its body with water or air, in balloon fashion, making it a difficult object for an enemy to seize.

## Noteworthy Immigrant

The first Rockefeller, John Peter, emigrated to America from Germany in 1723.

## Dairy Cows Should Be Milked Dry for Greatest Production

## COW'S LAST MILK RICHEST IN FAT

Stripping at Each Milking  
Prevents Cow From Going  
Permanently Dry.

Stripping or drawing the last drop of milk from each cow at every milking insures greater production and higher profits from the dairy herd declares the Blue Valley Creamery Institute.

Stripping the cow is important for two reasons, declares the Institute. One is that the last portion of the milk in the cow's udder is the richest in butterfat, the part on which the cash value of milk and cream is based. The other is that milking the cow dry at each milking stimulates her production and prevents a cow going dry many weeks before she should.

often is the case when even a small portion of milk is retained by the cow at each milking.

Just exactly how much the different portions of a cow's single milking vary in butterfat content is strikingly shown in a recent study by the New York experiment station on the milk produced by one cow. The first portion weighing 3.2 pounds, tested slightly less than four fifths of one per cent butterfat. The third portion of 4.6 pounds jumped up to 5.35 per cent in test, and the last portion, weighing 3.5 pounds, tested 8.8 per cent. This last 3.5 pounds of this cow's milk carried over half of the 0.35 pounds of fat she produced in the one milking.

Experienced dairy farmers know that the highest producing cows can be made dry readily, simply by incomplete milking. They know, too, that highest production can be maintained only by getting every drop of milk from the udder at each milking and that it pays him to spend a little extra time on each cow to get the stripplings the richest part of the whole milking.

## CHRISTIAN SCIENCE CHURCHES

"LOVE" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, Sunday, January 29.

The Golden Text was from Romans 13:10, "Love worketh no ill to his neighbor; therefore love is the fulfilling of the law."

Among the citations which composed the Lesson-Sermon was the following from the Bible: "No man hath seen God at any time. If we love one another, God dwelleth in us, and his love is perfected in us. And we have known and believed the love that God hath to us, God is love; and he that dwelleth in love dwelleth in God, and God in him." (1 John 4:12, 16)

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "That God is a corporeal being, nobody can truly affirm. . . . Not materially but spiritually we know Him as divine Mind, as Life, Truth, and Love" (p. 140).

## STATE CAPITOL ITEMS

The senatorial session of the special session of the general assembly has at last concluded that Governor Small's bill providing for a state-wide and legislative primary election in April should pass. The bill passed the senate by an emergency vote a few days ago and will go to the house soon for a final showdown to determine whether the test at the polls will be in the spring or fall. The assembly adjourned until Feb. 7.

The bills, over which there has been a general mixup since the special session opened, were called on their passage by Senator Richard Meents, Ashkum. The legislative bill was the first to be considered and the roll call showed thirty-six affirmative votes, two over the required number for an emergency. One voted in opposition with three Republicans not voting. A majority of the Democrats were silent on roll call. Then came the state-wide primary bill, which received thirty-five votes, one over the required number. There was no opposing vote recorded, the Democrats again declining to be recorded. The resultant senate action now puts the proposition directly up to the House, but many are of the opinion that the Supreme Court will have decided it ere they return to Springfield.

Construction of a dairy building on the state fair grounds at a cost of approximately \$250,000 is under consideration as a part of Governor Small's program to make the Illinois exposition grounds the most attractive in the country. The appropriation for the new structure was made at the last session of the general assembly and architects have been working on plans and specifications.

Should it be decided that the new building will be erected this year, the contract will be let at the earliest possible date so that it will be in readiness for occupancy a week or two before the fair.

The year 1927 was the wettest in the fifty years that statewide United States Weather Bureau records have been prepared, according to the annual weather summary for Illinois issued a few days ago by Clarence J. Root, meteorologist in charge of the Springfield office of the U. S. Weather Bureau.

That the absolute minimum temperature, 34 degrees below zero, was the lowest ever recorded in Illinois, also was stated in the report which follows in part:

The year was characterized by many features, described in the monthly numbers, among them, excessive rains, floods, and destructive local storms. The larger streams were in flood during most of the first six months, and in December also. Destructive storms were especially numerous in April and May; the St. Louis tornado occurred in September.

Seeding of corn and oats was greatly delayed as a result of wet weather considerable contemplated oats being abandoned. Droughty conditions obtained in the northern division in July and August. September was favorable for corn, but husking was delayed in November. Sixty per cent of the year's precipitation occurred during the crop-growing season.

"Farmers of the future, now students in vocational agricultural classes will be better prepared and therefore more capable, than their fathers," Stillman J. Stanard, director of agriculture, told 150 contestants in the dairy cattle judging contest held at Marlon, in conjunction with the annual exposition of the Illinois State Dairymen's association.

"Illinois will look to you high school boys for an improvement in the farming methods of the state," the speaker added. "You have opportunities that were denied. Let us hope you make the best of them."

In the contest, fifteen schools from as many southern Illinois cities, vied for prizes. First honors, and a silver cup were won by Metropolis students, scoring 662 of a possible 750 points. Marlon placed second with one point less. Equality, Eldorado, Mt. Vernon and Herrin high school teams finished in the order named.

The state board of vocational agricultural instruction, through Frank Makepeace, state contest manager, conducted this feature of the dairymen's convention. At the conclusion of the contest, Prof. R. E. Caldwell, of Milwaukee, demonstrated the methods used in selecting profitable dairy animals.

Throughout the three days of the meeting, speakers of national fame as dairy authorities discussed the various phases of the dairy farmers' problems. The association, during the convention, gained approximately 1,000 members in the southern end of Illinois, denoting an increased interest in the dairy industry.

Seventeen Illinois cities have made application to the directors of the state association for the 1929 convention. In the election of officers, W. S. O'Hair was returned to the office of president; George Caven, Chicago, was selected vice president, and Stillman J. Stanard, secretary. Chas. Foss, of Freeport, remains as treasurer.

Ten states competed for prizes in the state poultry show which was held at the state arsenal a few days ago, according to a statement issued by the secretary, A. D. Smith, Chief Poultryman.

In spite of shipping hazards, entries were made from the leading breeders in Nebraska, Missouri, Iowa, Kansas, Indiana, Texas, Ohio, Michigan and Wisconsin.

As a competitive exhibition of the standard breeds of chickens, of officials who conducted the show stated that it was the equal of the national poultry show. "The nation's finest specimens were on exhibition," Mr. Smith stated. "Of all the breeds and varieties recognized as standard by the American Standard of Perfection, very few were lacking in the Springfield showing."

Standardization of banking practices in Illinois will result from the establishment of clearing houses in districts of the Illinois Bankers' association, according to J. K. Appel, president. The plan was approved a few days ago by the administrative committee and council of the association.

Through the district clearing houses an accurate picture of agricultural and industrial conditions may be obtained at a moment's notice, Appel said.

Contracts let on new building and engineering work in Illinois during the last year amounted to \$776,153,300 and in Chicago \$501,952,500. For both the state of Illinois and the Capital City the 1927 figure was the highest yearly contract total on record. In the state there was an increase of 18% over the 1926 record and Springfield showed a gain of 15% over its 1926 construction record.

Analysis of the year's record for Illinois showed that residential building amounting to \$406,405,200 was still the leading type of construction in this district. Commercial buildings took second place with \$105,892,500 and public utilities and works ran a close third with \$101,925,500.

During December there was \$82,637,400 worth of new construction work started in Illinois. Of this amount \$66,255,400 was for work started in Chicago. The state's record was the highest December contract total ever recorded for Illinois. It was 53% ahead of the November record, as well as 81% over the total for December, 1926.

Honorable L. L. Emmerson, Secretary of State, displayed the first copies of the 1927 Blue Book a few days ago. This is the largest and most complete Blue Book ever produced in the State of Illinois and Mr. Emmerson is to highly complimented upon its appearance.

## Big Tree

The largest tree in the eastern hemisphere, if not in the world, is a monster chestnut standing at the foot of Mount Etna. The circumference of the main trunk at 60 feet from the ground is 212 feet.

## MILLBURN MAN IS HONORED ON 78TH BIRTHDAY

## Miss Una Minto Leaves on Speaking Tour of The South

Mr. and Mrs. Gordon Bonner entertained Mr. and Mrs. J. H. Bonner, Miss Vivian Bonner, Mr. and Mrs. L. S. Bonner and children and Mr. and Mrs. MacNair on Sunday in honor of J. H. Bonner's 78th birthday.

Miss Una Minto leaves Wednesday for two months in the southern states, speaking at the colleges and churches. She gave a very interesting talk to her friends at Millburn on Sunday.

Mrs. Fred Achen of Kenosha spent Wednesday with her sister, Mrs. E. A. Martin.

Mr. and Mrs. D. H. Webb and Webb Edwards spent Saturday and Sunday with Earl Edwards and family at River Forest.

Andrew White, Miss Cora White, Mr. and Mrs. D. G. White of Grayslake attended church at Millburn on Sunday.

Frank Clark, for many years a resident of Millburn and vicinity passed away Wednesday morning at the home of his son, John Clark at Lake Villa. The funeral services were held at the Millburn church Saturday afternoon. Rev. MacNair officiated.

The young people had an enjoyable time at their social Saturday evening with Eric Anderson and Gustav Christensen in charge of the games. The P. T. A. will meet at the of Mrs. Torfin Friday evening, Feb. 8. Try our Danah coffee cake for 35c. Robt. C. Worsley.

The teachers and officers of the Sunday School will meet at the home of Mrs. Torfin Friday evening, Feb. 8. There will be a Father and Son banquet at the Masonic hall Wednesday evening, Feb. 8.

## Had Many Children

Robert Cook, editor of a medical publication in Washington, D. C., often as the most authentic case of a large family that of Dr. Mary Austin, a Civil war nurse, who claimed to have borne 44 children—13 sets of twins and 6 triplets.

## Simplicity

The simplest ideas are sometimes the most incommunicable. Mankind are so prone to mystery that they create it and expect to find it, where it does not exist; moreover, simplicity is the first thing that is lost and the last that is regained.—Acton.

## FARM AUCTION

Having decided to move to California, the undersigned will sell at public auction on the Vose farm, known as the Lone Pine farm, 2 1/2 miles west of Gurnee and 2 miles east of Wedges Corners, on

SATURDAY, FEBRUARY 11

Commencing promptly at 12:30 o'clock, the following described property:

22—HEAD OF LIVESTOCK—22 19 CATTLE including 6 registered Holsteins, 11 high grade milk cows, fresh and with calves, close springers and heavy milkers. All cattle passed clean test Jan. 27, 1928. Herd has never had a reactor. 60-day retest given.

3 HORSES—Two sets double harness.

Quantity of hay, grain and machinery and tools, also household goods.

Usual terms.

VIRGEN M. LAMB, Prop. Clerks, J. E. Brook and Earl Washburn.

Auctioneer, George Vogel.

## It Has

Reading the motor accidents, we are led to believe that this industry has the greatest turnover of any

## "Stop" Means Stop Attorney General Warns Motorists

When the general assembly of Illinois says "stop" it means stop, and when it says "full stop" no doubt should remain in the minds of the officers as to the exact interpretation. In the opinion of Attorney General Oscar E. Carstrom.

For the elucidation of the state's attorney at Princeton, Carstrom has given his interpretation of the law requiring motor vehicles to stop when they drive in from a cross street upon a state highway running through a town or city.

The state's attorney wished to know if a driver approaching such an intersection should only slow down and make sure that the way is clear would be liable to prosecution even though no elements of reckless driving entered in. He suggested that a driver could change gears, look up and down, and then proceed if no cars were approaching.

The attorney general's reply was in one paragraph:

"The law states in clear, plain language that the driver of an automobile must come to a full stop, regardless of directions which give the right of way to vehicles on said highway. Therefore no other construction can be given the language except the plain, ordinary meaning. As you will notice, the legislature did not say you must come to a stop, but you must come to a full stop."

## To Keep Cocoons

Cocoons should be kept out of doors, where conditions as nearly as possible are similar to those they pick themselves, says Nature Magazine. Protection with netting will prevent destruction by birds. Freezing is not detrimental, and is even necessary to some species, and the dampness of the out-of-doors is desirable.

## "Albion" From the Rose?

The name "rose" is traced to the Celtic word "rhod"—red. But wild white roses must have been very common in this country, as historians have questioned whether it was from the roses or the white cliffs that England learned the name "Albion," or whitedland.—London Times.

## Not When He's Collecting

The whole world loves a lover, 'tis said; but the same can't be said of a lender.—Rushville Republican

## Utah "State of Deseret"

The state of Deseret was the name given by the Mormons in 1849 to their settlement in the present state of Utah. Deseret was taken from the Book of Mormon and meant land of the honey bee. In 1850 congress created the territory of Utah, and the old name fell into disuse.

## Evolutionary Theory

According to one scientific view, man comes of a stock common to him and the higher apes. It is believed that the divergence of the humanoid and anthropoid types occurred perhaps a million or more years ago.

## ALFALFA BEST OF BEST CROPS

No crop on American farms yields so much palatable, digestible and highly nutritious food as alfalfa hay according to the Blue Valley Creamery Institute. It produces twice as much hay per acre as other leading forage crops. During the four years 1921 to 1924 the average yield of alfalfa in the United States was two and two-thirds tons per acre while for timothy it was but one and one-quarter tons; mixed clover and timothy only one and one-third tons and clover alone, one and one-fifth tons. In feeding value alfalfa also is superior to other hays, especially for dairy cows. It furnishes at low cost the expensive proteins which are so essential for high and economical milk production, growth and muscle building.

Based on the amounts of digestible nutrients contained in them, the value of alfalfa hay is more than double that of timothy hay, ton for ton.

Properly cured, alfalfa is the most palatable of hays. The eagerness with which it is consumed by all classes of live stock is evidence of this important property. Alfalfa hay also is highly digestible, so that a large proportion of its nutrients are used in milk production and body development. All around, alfalfa tops the feed crops of the United States.

### Indians Had Maple Sugar

The Indians were adept at maple sugar making before the coming of the white man. In fact, the whites learned of maple sugar from the Indians and imitated their process of tapping trees and boiling down the sap. The aborigines of America made both sirup and cake sugar of the most delicious kind. Such sugar was an object of barter among them.—Pathfinder Magazine.

### From Tadpole to Frog

The bureau of Fisheries says that the length of time that it takes a tadpole to become a full-grown frog depends entirely on the type of frog. For example, for a bullfrog about two years and for a tree frog anywhere from 50 to 60 days.

### Started Great Work

On August 30, 1890, congress enacted a law providing for the endowment of colleges of agriculture and mechanics' arts. The money for this was to come from the sale of public lands, and the amount to be expended was \$25,000.

### The Eighth Graders Write Good Themes

Eight grade students of the Antioch schools have written a number of very interesting themes on immigrant days. The papers being written impromptu with only an hour's time allowed. They were counted as part test work covering the past six weeks work in Illinois history.

The papers are valuable from the standpoint of revealing the student's knowledge in regard to location, facts presented and accuracy of time relation. Some of these themes will be published in the News. The first is by Robert King.

### My Experience as an Immigrant

In 1838 our family started from Wilmington, North Carolina for Missouri. My father had failed in business and thought to try his luck as a prairie farmer.

We started northwest along the Atlantic coast on a very slow boat until we reached the mouth of Chesapeake Bay. We rowed up the bay where many ships were harbored including many fishing schooners.

I was 14 years old as I remember. The trip was very interesting. We landed at Baltimore so we soon started our overland trip on foot for Harrisburg, Pennsylvania. The trip over the mountains was uneventful.

We traveled a short distance on the Cumberland road after leaving Baltimore. This road was opened in 1840 and cost \$7,000,000.00.

We stopped at Harrisburg, the capital of Pennsylvania, where we purchased a Conestoga wagon and some livestock. We used oxen for pulling the wagon. All of our pots, pans, and kettles were suspended from the bottom of the wagon on toward the rear. It was the duty of my boys to look after the livestock which consisted of cattle and hogs.

We encountered several toll bridges. We thought that the owners of those had a good business from what they charged us.

We finally reached Erie where we loaded our belongings into a boat. We called to Toledo, where we again started overland.

One night while we were travelling across northern Indiana part of the livestock ran away. We hunted until nearly morning trying to find the pesky animals. We were very tired so we did not get started that morning until very late.

About a week later we arrived at

### American Legion Notes (By the American Legion.)

Edward J. McGough, the Commander of the 8th District of the American Legion, paid off a number of his debts last evening. Incurred by reason of the large membership campaign that has been rolled up Lake county for the American Legion for the year, 1928. Mr. and Mrs. William Woodward were entertained at dinner at the new Stevens Hotel by reason of winning the contest for the first Post in 1928 to reach 100% of its 1927 membership.

Mr. and Mrs. R. C. Russell, and Mr. and Mrs. Kenneth L. Muir of the George Alexander McKinlock, Jr., Post, Lake Forest, Ill., Mr. and Mrs. George L. Hurt of the Navy and Marine Post, Great Lakes, Ill., Mr. and Mrs. Wm. H. Woodward, of the Shavin Post, North Chicago, Illinois, Mr. and Mrs. A. Mapleshorpe and Mr. and Mrs. J. L. Horan of the Antioch Post, Mr. and Mrs. C. C. Hoskins, of the Libertyville Post, Mr. and Mrs. C. E. Huhn and Mr. and Mrs. A. F. Meyer of the Deerfield Post, and Mr. and Mrs. Harry Francisco of the Arthur J. Daley Post, Wauconda, Ill., were entertained at the Cort Theatre, owned and operated by Urbine J. Hermann, familiarly known as "Sport", noted sportsman, famous yachtsman and Arctic Explorer, with the show "Two Girls Wanted."

The members of the Theatre party achieved their good fortune in defeating other Posts of the county in the membership race which ended on January 1, 1928, and which resulted in maintaining the lead of Lake county over all the other counties of the state of Illinois, and raising up a new total far surpassing any previous year total of Lake county on a similar date.

All attending the party expressed themselves as well pleased with the show and the results of the contest and it is expected that at sometime in the future a similar contest with a similar prize will be offered.

Chicago where we stopped for about a day. We traveled straight across Illinois not wanting to stop as my father was a slave owner and Illinois was a free state. We were very well satisfied with Missouri. Dad settled down as a farmer until the Civil War broke out then he joined the Confederacy while I joined the Union Army.

### Historic Boston Tavern

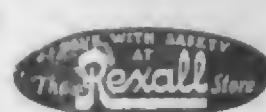

The first lodge of Freemasons in America, St. John's, held its initial meeting in 1733, at the Bunch of Grapes in King street, now State street, Boston. It was at this tavern, known as the "best punch house in Boston," that Lafayette stopped during his tour of the young Republic before returning to France.

### Impractical Science

Science can predict an eclipse of the sun years in advance, but cannot forecast a blackout over the week-end.—Brunswick (Ga.) Republican.

### Kangaroo Outstrips Horse

In a recent race between an Australian race horse and a kangaroo, the latter far outdistanced the horse.

FULL OF  
VITAMINS

COD LIVER  
OIL

is obtained by expressing the livers from cod only a few hours out of the water. This makes so oil teeming with the dynamic vitalizing forces of the vitamins, so essential to good health.
